Ancient Egypt: Digital Field Trip Post-Visit Activity

Many cultures across the world revere or worship ancestors, including Indigenous cultures in BC. Egyptians showed respect and stayed connected to their ancestors by visiting their tombs and offering food and writing letters to them. These actions helped continue the cycle of life.

Have students pair with someone and compare their thoughts on the following:

- What would you ask your ancestors to help you with?
- How would you ask them? A letter? A poem? Something else?
- What kind of gift would you bring them, and why?
